DERMAROLLER

The Dermaroller is a treatment used to stimulate the production of elastin and collagen in the skin. It is used to treat fine lines and wrinkles, acne scarring, the increase of penetration of skin care products into the skin, as well as the overall improvement of the skin's colour and texture.

PRP – PLATELET RICH PLASMA

PRP is an autologous process (your own plasma). This plasma is rich in stem cells & growth factors. This provides skin rejuvenation, on the skin's surface, as well as below. This treatment is combined with skin needling or mesotherapy, which also stimulates the production of collagen & elastin. www.my-cells.net

MESOTHERAPY / MESOLIFT / NAPPAGE

Treatment for skin rejuvenation, fat deposit areas, cellulite, body contouring. Multiple intradermal injections (very fine needle), to deliver nutritive & revitalising active ingredients into the skin.
